GePP - GST e -Invoice Preparing and Printing Tool

National Informatics Centre (NIC) is happy to announce the release of 'NIC-GST e-invoice Preparing and Printing' (NIC-GePP Ver. 1.0). This is an excel based Tool to assist the tax payers, who are not having the ERP solution, to enter invoice in a user friendly form and print the e-invoice with QR code, after downloading the IRN from e-invoice portal.

Salient Features of the Tool

1. Simple form for entering the invoices one by one
2. Creation of Supplier profile
3. Creation of Recipient masters
4. Creation of HSN masters
5. Preparation of e-Invoice JSON file
6. Generation of IRN
7. Downloading and Importing of QR code in the tool
8. Printing of e-Invoice from the tool.

Benefits

- ✚ Assists the tax payers to prepare and print the e-invoice with QR code
- ✚ Facilitates exchange of the data with the e-invoice system as per the interface format.
- ✚ Suitable for tax payers not having the ERP system or issuing 10-12 invoices (B2B and Export) per day

Presently, the tool is available in e-invoice trial portal under (<https://einvoice1.gst.gov.in>) under Help → Tools → Bulk Generation Tools. Download the tool by registering your GSTIN or mobile number. You may refer the video and user manual for more information

Note: Use a separate instance of the GePP tool for each GSTIN
